

Quotation No.: JCQ2311-10AM				Quotation Date: Nov 22, 2023				Valid: 6 month	
Quotation 5-7Tons/Hour Animal Feed Production Line (Feed Size: 2.5,3,3.5,4,6,8mm for choose) HS Code: 84748020									
Item	Name	Model	Qty	Power (kw)		Price (USD)		Picture	Remarks
				Unit	Total	Unit	Total		
Machine List									
1. Process of Raw Material Receiving, Clearing and Grinding									
101	Grid Sieve	CQ100	1			280.0	280.0		Made of 5# flat steel.
102	Ventilator	4-72No3.0A	2	1.50	3.00	436.00	872.00		Commonly used in forging smelting furnace and high pressure forced ventilation, and transporting materials,
103	Pulse Dust Collector	TBLMFa8	2			1,320.00	2,640.00		1. Equipment Casing: 3mm carbon steel. 2. Aluminum Alloy Venturi, Filter Bags; 3. With HTMC System 4. Bag quantity: 18pcs 5. bag fast loading and unloading mechanism patent technology,when open the door, worker can remove the filter bag one by one.
104	Bucket Elevator	TDTG36/28	1	3.00	3.00	2,850.0	2,850.0		1. Head provided with non-return device, fire-proof and anti-abrasive rubber head pulley can prevent belt from sideslip. 2. Lined with high powder molecular wear plate; the straight tube with 2mm carbon steel; 3. EP bucket belt and plastic bucket 4. Provided with anti-explosion vent which can effectively avoid dust explosion.
105	Tube Magnet	TCXT20	1			512.0	512.0		1. Magnetic indensity: >3000gs. 2. Made of 3mm stainless steel, permanent magnet core 3. Strong separation of magetic metal inclusion 4s in raw materials. 4. Iron removal efficiency: ≥99%
106	Mechanical Indicator	CR30-15	1			85.0	85.0		Indicating raw material volume
107	Pre-grinding Bin	2m³	1			480.0	480.0		1. Made of 3mm carbon steel plate; 2. Streamline preventing residual and agglomerates structure

Quotation No.: JCQ2311-10AM				Quotation Date: Nov 22, 2023				Valid: 6 month	
Quotation 5-7Tons/Hour Animal Feed Production Line (Feed Size: 2.5,3,3.5,4,6,8mm for choose) HS Code: 84748020									
Item	Name	Model	Qty	Power (kw)		Price (USD)		Picture	Remarks
				Unit	Total	Unit	Total		
108	Pneumatic Slider	TZMQ40×40	1			296.0	296.0		Pneumatic control with slide frame, pneumatic cylinder, limit switch, electromagnetic conversion valve, a solenoid valve. Outside made of 3mm Q235 steel, flashboard 5mm Q235 steel.
109	Impeller Feeder	SSY1	1	1.50	1.50	1,470.0	1,470.0		screw type feeder, speeding changing
110	Hammer Mill	SF56-60	1	55.0	55.00	5,982.0	5,982.0		1. Two-blow design for crushing chamber; the gap between hammer and screen adjustable; 2. Suitable for coarse and fine power; 3. Imported high quality bearings; rotor through strict dynamic balance test; 4. Convenient pressure screen overall, making sure the tightness of the crushing room; 5. Widely used for grinding in feed, oil, food, chemical, brewery industries. 6. capacity 4-5T/H at output size 4-5mm, capacity 5-8T/H at output size 6-8mm, siemens motor. 7. Screen hole: 1.5-8mm for choose
111	Air Channel and Hopper		1			315.0	315.0		Made of 3mm carbon steel plate, with checking window
112	Ventilator	5-36No4.36A	1	7.50	7.50	724.0	724.0		Commonly used in forging smelting furnace and high pressure forced ventilation, and transporting materials
113	Pulse Dust Collector	TBLMFa24	1			2,180.0	2,180.0		1. Equipment Casing: 3mm carbon steel. 2. Aluminum Alloy Venturi, Filter Bags; 3. With HTMC System 4. Bag quantity: 36pcs 5. bag fast loading and unloading mechanism patent technology,when open the door, worker can remove the filter bag one by one.
114	Screw Conveyor	TLSS20	1	2.20	2.20	1,896.0	1,896.0		Body made of 3mm carbon steel sheet; 4mm cold rolling blade, with varying pitch
Total					72.20		20,582.0		
2. Mixing Process									
201	Grid Sieve	CQ100	1			280.0	280.0		Made of 5# flat steel.

Quotation No.: JCQ2311-10AM						Quotation Date: Nov 22, 2023		Valid: 6 month	
Quotation 5-7Tons/Hour Animal Feed Production Line (Feed Size: 2.5,3,3.5,4,6,8mm for choose) HS Code: 84748020									
Item	Name	Model	Qty	Power (kw)		Price (USD)		Picture	Remarks
				Unit	Total	Unit	Total		
202	Bucket Elevator	TDTG36/28	1	3.00	3.00	2,960.0	2,960.0		1. Head provided with non-return device, fire-proof and anti-abrasive rubber head pulley can prevent belt from sideslip. 2. Lined with high powder molecular wear plate; the straight tube with 2mm carbon steel; 3. EP bucket belt and plastic bucket 4. Provided with anti-explosion vent which can effectively avoid dust explosion.
203	Tube Magnet	TCXT20	1			512.0	512.0		1. Magnetic indensity: >3000gs. 2. Made of 3mm stainless steel, permanent magnet core 3. Strong separation of magetic metal inclusion 4s in raw materials. 4. Iron removal efficiency: ≥99%
204	Mechanical Indicator	CR30-15	1			85.0	85.0		Indicating raw material volume
205	Bin	2m³	1			480.0	480.0		1. Made of 3mm carbon steel plate; 2. Streamline preventing residual and agglomerates structure.
206	Pneumatic Gate Valve	TZMQ40×40	1			296.0	296.0		4mm steel for shell material, nylon bearing
206-1	Pneumatic Gate Valve	TZMQ30x30	1			280.0	280.0		4mm steel for shell material, nylon bearing
207	Adding Hopper		1			260.0	260.0		

Quotation No.: JCQ2311-10AM				Quotation Date: Nov 22, 2023				Valid: 6 month	
Quotation 5-7Tons/Hour Animal Feed Production Line (Feed Size: 2.5,3,3.5,4,6,8mm for choose) HS Code: 84748020									
Item	Name	Model	Qty	Power (kw)		Price (USD)		Picture	Remarks
				Unit	Total	Unit	Total		
208	Screw Mixer	SLHY2.5	1	15.00	15.00	5,930.0	5,930.0		1.Capacity: 1T/batch 2.Pneumatic gate discharge 3.Driven: chain driven 4.Mixing time:3-5min. 5.Stalbe in mixing,no segregation and less residue 6. One unit control box
209	Air Channel and Hopper	0.3	1			468.0	468.0		Made of 3mm carbon steel plate
210	Scraper Conveyor	TGSU25	1	3.00	3.00	2,285.0	2,285.0		With narrow spacing, high strength scraper chain, and TR bearing
Total					21.00		13,836.0		
3. Process of Pelleting and Cooling									
301	Bucket Elevator	TDTG36/28	1	3.00	3.00	2,850.0	2,850.0		1. Head provided with non-return device, fire-proof and anti-abrasive rubber head pulley can prevent belt from sideslip. 2. Lined with high powder molecular wear plate; the straight tube with 2mm carbon steel; 3. EP bucket belt and plastic bucket 4. Provided with anti-explosion vent which can effectively avoid dust explosion.
302	Pneumatic Three-way Gate	TZMQ2×25×450	1			316.0	316.0		Made of 3mm carbon steel plate
303	Tube Magnet	TCXT20	1			512.0	512.0		1. Magnetic indensity: >3000gs. 2. Made of 3mm stainless steel, permanent magnet core 3. Strong separation of magetic metal inclusion 4s in raw materials. 4. Iron removal efficiency: ≥99%
304	Pre-pellet Bin	2m³	1			480.0	480.0		1. Made of 3mm carbon steel plate; 2. Streamline preventing residual and agglomerates structure
305	Mechanical Indicator	CR30-15	1			85.0	85.0		Indicating raw material volume
306	Pneumatic Gate Valve	TZMQ40×40	1			296.0	296.0		4mm steel for shell material, nylon bearing

Quotation No.: JCQ2311-10AM				Quotation Date: Nov 22, 2023				Valid: 6 month	
Quotation 5-7Tons/Hour Animal Feed Production Line (Feed Size: 2.5,3,3.5,4,6,8mm for choose) HS Code: 84748020									
Item	Name	Model	Qty	Power (kw)		Price (USD)		Picture	Remarks
				Unit	Total	Unit	Total		
307	Pellet Mill	SZLH400	1	75+5.5 +1.5	82.00	15,216.0	15,216.0		1. Single Conditioning apparatus made of full stainless steel; 2. Siemens motor; 3. SKF Bearing 4. One unit control box
308	Ventilator	4-72No5.0A	1	7.50	7.50	810.0	810.0		1. Incl.feeding airlock, good cooling effect.
309	Cyclone	Φ800	1			1,528.0	1,528.0		2. Adopts sliding product discharging mechanism, stable running, reliable and smooth.
310	Airlock	GFZ.10	1	0.75	0.75	532.0	532.0		3. After cooling less than ambient +3~+5 celsius degree.
311	Counterflow Cooler	SKLN2.5	1	0.75	0.75	6,023.0	6,023.0		4. Automatically stop during discharging. 5. Less space required.
312	Airlock	GFZ.5	1	0.55	0.55	454.0	454.0		
313	Pellet Crumbler	SSLG15×100	1	5.50	5.50	5,120.0	5,120.0		1. To crumble big pellets into small pellet of about 0.6~1.5mm or 1~2.5mm for small baby chicken feed; 2. With compact structure, even size, convenient and quick adjustment; 3. Rolls perform differential rotational speed. Pellets are pressed, sheared and torn, thus reaching ideal crumbling effect
Total					94.00		34,222.0		
4. Bagging System									
401	Bucket Elevator	TDTG36/28	1	3.00	3.00	2,850.0	2,850.0		1. Head provided with non-return device, fire-proof and anti-abrasive rubber head pulley can prevent belt from sideslip. 2. Lined with high powder molecular wear plate; the straight tube with 2mm carbon steel; 3. EP bucket belt and plastic bucket 4. Provided with anti-explosion vent which can effectively avoid dust explosion
402	Rotary Screener	SFJH100*2C	1	3.00	3.00	4,410.0	4,410.0		1. Lead casting eccentric slewing mechanism, elastic sieve body supporting mechanism. 2. SKF double row tapered roller self-aligning bearing; maintenance tank (emergency stop button, etc.). 3. Easy maintenance and operation.
403	Mechanical Indicator	CR30-15	1			85.0	85.0		Indicating raw material volume
404	Pre-pellet Bin	2m³	1			480.0	480.0		1. Made of 3mm carbon steel plate; 2. Streamline preventing residual and agglomerates structure

Quotation No.: JCQ2311-10AM				Quotation Date: Nov 22, 2023				Valid: 6 month	
Quotation 5-7Tons/Hour Animal Feed Production Line (Feed Size: 2.5,3,3.5,4,6,8mm for choose) HS Code: 84748020									
Item	Name	Model	Qty	Power (kw)		Price (USD)		Picture	Remarks
				Unit	Total	Unit	Total		
405	Pneumatic Gate Valve	TZMQ40x40	1			296.0	296.0		4mm steel for shell material, nylon bearing
406	Packaging Machine with Sealing Machine	SDBY-P	1	1.5+0.75+1.1	3.35	5,622.0	5,622.0		Packing weight: 10-50kg/bag, erron: <5g, speed: 300-400bags/H, with the sealing Machine 0.75kw, belt conveyor 1.1kw
407	Ventilator	4-72No3.0A	1	1.50	1.50	436.00	436.00		Commonly used in forging smelting furnace and high pressure forced ventilation, and transporting materials,
408	Pulse Dust Collector	TBLMFa12	1			1,320.00	1,320.00		1. Equipment Casing: 3mm carbon steel. 2. Aluminum Alloy Venturi, Filter Bags; 3. With HTMC System 4. Bag quantity: 18pcs 5. bag fast loading and unloading mechanism patent technology,when open the door, worker can remove the filter bag one by one.
	Total				9.35		15,499.0		
5. Auxiliary Parts									
501	Air Compressor		1	7.50	7.50	2,820.0	2,820.0		Air pressure at 8Bar, equipped with a 0.6CBM air tank, and one dryer, including connect pipes and values.
502	Air Dryer		1	0.75	0.75				
503	Air Tank		1						
504	Oil adding system	SYTV-18	1	2.20	2.20	2,116.0	2,116.0		To add oil, including connect pipes and values. Heating system connect to steam boiler, manual type
	Total				10.45		4,936.0		
1	Electric Control System					7,150.0	7,150.0		1 control panel box for all equipments, and 1unit control panel for hammer mill, 1unit control panel for mixer, 1unit control panel for pellet machine
2	All copper cables: connect all machines with the control room, briges								

Quotation No.: JCQ2311-10AM				Quotation Date: Nov 22, 2023				Valid: 6 month	
Quotation 5-7Tons/Hour Animal Feed Production Line (Feed Size: 2.5,3,3.5,4,6,8mm for choose) HS Code: 84748020

				Unit	Total	Unit	Total		
					<p>Motor Control Center</p> <p>1)MCC cabinets are placed in the HV power room of workshop. The technological process of feed plant consists of raw materials intake section, fine grinding and mixing section, pelleting section and bagging section. The system is fitted with a master switch and all sections are fitted with branch switches, benefiting that sections of system are separated for equipment operation or maintenance.</p> <p>2) Cabinet</p> <p>Seal is used and each equipment is controlled separately. The cabinet is fitted with air switches, AC contactors, thermal relays, etc. It has features of dustproof, safety and convenient maintenance.</p> <p>3)All circuits in the cabinet have functions of overload and short circuit protection and current monitoring. Star-delta voltage drop starting is adopted for higher power (over 30KW). Direct starting is adopted for lower power (below 15KW).</p>				
3	steam generator	500kg per hour, working press 0.8Mpa, vertical type. Diesel heating		9,863.0	9,863.0			Temperature 172 ℃ , Including steam bags, elbow 45 and 90, seamless tube from boiler to the pellet machine. 30m steam pipe, and 20m water pipe., Not including water and fuel tank	
4	Installation Materials	Steel frame with stairs, to support and fix all equipments parts, and make the whole equipment stand. “H” steel “ [” steel “ □ ” steel “ < ” steel Sheet steel, about 16T		15,032.0	15,032.0			Square tubes, diamondplates, iron plates, galvanized pipes, channel steel, angle iron, flexible pipes, etc. or from Local	
5	Spare Parts for 2-4 Years	Optional		9,960.0	9,960.0			A. Screen for Hammer Mill (3, 4, 5, 6,8mm): 60 pcs B. Hammer for Hammer Mill: 3 sets C. Stainless steel made Mould: 8 sets (4piece 3.0mm, 3piece 4mm, 2piece 6mm, 1piece 8mm), ; roller shell: 16 pcs; axis: 8 pcs; roller sealing ring: 20pcs; cutter: 6 sets D. Screen for Classifying Rotary Screener: 3 pcs E. buckets 60pieces, screws 400sets F: bearing 4pieces	
6	Installation and Training Service	Round-trip tickets, visa application fee, insurance charge, and salary for 1 engineers at USD90/Day/Person, total about 50-60 days, or 1 local technical man 60USD/Day, for choose			0.0			Buyer side needs to provide 6-8 local workers for installation, and provide free accommodation and food for our engineers.	
	Total	FOB China Port			131,080.0				
		Delivery Cost To be quote						Total 3*40HQ Containers needed	
Below materials for your choice, we can supply them or you can get them locally for installation
